Automated Matching

There are 0 jobs that most closely meet your criteria, **however** you can do your own search by using the "Job Search" link above

If you are an Unemployment Insurance Claimant, you need to make five (5) job contacts per week. According to Unemployment Insurance: "Job contacts must be for work you are reasonably qualified to perform and are willing to accept. Actions that would be considered job contacts include completing job applications, faxing, mailing or emailing resumes, telephoning employers, or visiting the employers in person." If you do not feel this is reasonable based on your occupation you may contact a [Workforce Center](#) and speak to a specialist.

Remember that, if you have filed for unemployment insurance and are updating your work registration, you must have chosen the correct option (one that contains the word "claim") under Unemployment Insurance Status.

If you need to file for Unemployment Insurance Benefits, click [here](#) to file your claim on-line.
